Shreyash Singhai

Bhopal, India | +91-7000016180 | shreyashsinghai2005@gmail.com | GitHub | LinkedIn | Portfolio

EDUCATION

- **VIT Bhopal University, Bhopal** *2023–2027*
  B.Tech in Computer Science & Engineering (AI & ML) | CGPA: 7.78/10
  Relevant Coursework: Machine Learning, Deep Learning, MLOps, Cloud Computing
- **Delhi Public School, Bhilai**
  Class XII – 81% (2023) | Class X – 79.8% (2021)

TECHNICAL SKILLS

Languages: Python, C++, SQL

AI/ML: Deep Learning, NLP, Gen AI, MLOps

Libraries : Scikit-Learn, Pandas, Numpy, Matplotlib, Seaborn

Databases: MySQL

Tools: Git, GitHub, Docker, Google Colab

PROJECTS

- **Terminal-RAG: Local Retrieval Augmented Generation System** | GitHub
  - Engineered a lightweight, offline RAG pipeline in Python achieving 100% Hit Rate@5 and 1.0 MRR with an average retrieval latency of 53 ms, optimized to run on hardware with as little as 4 GB RAM.
  - Implemented semantic search using 384-dimensional sentence embeddings (all-MiniLM-L6-v2) with cosine similarity retrieval (87.5% Recall@5, 70% Precision@5) and context-grounded answer generation via Qwen 2.5 (0.5B). for near-instant startup on repeat runs.
  - Built a pickle-based vector caching layer that reduced repeat startup time from 10 seconds to under 1 second, with automatic cache invalidation on source file changes.
- **Mood-Lens: AI mood and Productivity Analyser** | GitHub | Live Demo
  - Built an end-to-end multi-label emotion classification system trained on the GoEmotions dataset (58K+ Reddit comments) to detect 28 emotion classes using Logistic Regression (OvR) with TF-IDF, achieving 42% Micro-F1 and 94.9% Hamming Accuracy on a stratified 70/15/15 split.
  - Developed a FastAPI inference microservice with Pydantic validation and batch prediction, consumed by a Streamlit frontend, deployed live and containerized with Docker (separate train/inference images) with MLflow experiment tracking and GitHub Actions CI.

EXPERIENCE

- **MERN Stack Club, VIT Bhopal** *Apr 2025 – May 2026*
  Core Member – Social Media & Analytics *Bhopal, India*
  - Drove an 18% increase in event participation through data-driven campaign strategies, translating stakeholder goals into measurable KPIs and actionable analytics insights.
  - Collaborated cross-functionally to optimize campaign performance, applying A/B testing and engagement analysis to improve audience targeting and messaging.

CERTIFICATIONS

- **Generative AI Professional** (Oracle) | Built a RAG-based chatbot using OCI Generative AI Service, covering LLM fundamentals and generative AI service architecture
- **Cloud Computing** (IIT Kharagpur/ NPTEL) | Covered cloud architecture, virtualization, distributed systems, and service models (IaaS, PaaS, SaaS)

ACHIEVEMENTS

- **Round 2 Qualifier, BrAINWARS (Bain Capability Network):** Advanced past national-level screening in Bain's flagship UG case competition, developing hypothesis-driven business recommendations under mentorship from Bain consultants
